## Chipping Program

**Target: Positive yearly growth in total volume of material collected**

**Target: Positive yearly growth in number of households participating**

In 2019, the number of Breckenridge homes that participated in the Chipping Program increased by 111. Over 4,577 piles of slash have been collected in Breckenridge since the project's inception in 2014.

## Town Forest Management

**Target: Positive yearly growth of total acres treated**

The Town treated six acres of land in 2019. This program has also slowed due to reaching its goals.

## USFS Forest Management

**Target: Positive yearly growth of total acres treated**

The Forest Service is under contract to treat a total of 3,500 acres of national forest surrounding Breckenridge by 2021. In 2019, projects took place on Ophir Mountain, Peak 7, and Swan Mountain.
